COMPANY PROFILE • 2026

RICO PRECISION TECHNOLOGY CO., LTD.

WHO WE ARE

Integrated Manufacturing. Engineered in Taiwan. Made in Vietnam.

RICO Precision Technology Co., Ltd. is a Taiwan-invested manufacturing partner in Vietnam specializing in shower door hinges, handles, glass clamps, and related glass hardware accessories, with vertically integrated manufacturing capabilities for OEM / ODM programs.

70,000 m²

MANUFACTURING SITE

400

EMPLOYEES

250 TONS

MONTHLY CAPACITY

END-TO-END

MANUFACTURING CAPABILITY

VERTICALLY INTEGRATED MANUFACTURING

From engineering and tooling through final assembly and packing.

Taiwan Engineering. Vietnam Manufacturing.

Combining Taiwan engineering know-how with vertically integrated manufacturing in Vietnam.

TAIWAN ENGINEERING

- Product Know-how
- Engineering Expertise
- Quality Standards

INTEGRATED MANUFACTURING

- Process Integration
- Production Control
- OEM / ODM Execution

VIETNAM MANUFACTURING

- Production Scale
- Stable Supply
- Skilled Workforce

One Manufacturing System. Multiple Processes.

Core processes are integrated in-house for greater control, consistency, and production efficiency.

01

ENGINEERING & TOOLING

Product Development
Engineering Expertise
Tooling

02

FORMING

Brass Forging
Stainless Steel
Investment Casting
Tube Bending

03

PROCESSING

Machining
Polishing
Plating
ED Coating

04

QUALITY & COMPLETION

Quality Assurance
Assembly & Packing

Professional Team

Engineering, Design & Customer Support

Material Warehouse

Material Storage & Preparation

Tooling

Tooling support for consistent production.

EQUIPMENT

- CNC Machining Centers
- EDM Machines
- Milling & Grinding Machines

CAPABILITIES

In-House Tooling, Mold Making, Precision Machining, Tool Maintenance

Tran Van Tiep

Tooling Manager

Tooling In Action

From tooling preparation to precision machining.

Forging

In-house forging for greater control over quality and production.

EQUIPMENT

- 250T Forging Presses
- 315T Forging Presses
- 400T Forging Presses
- Automatic Heating Furnaces
-

CAPABILITIES

Brass Forging · Trimming · Sizing & Forming

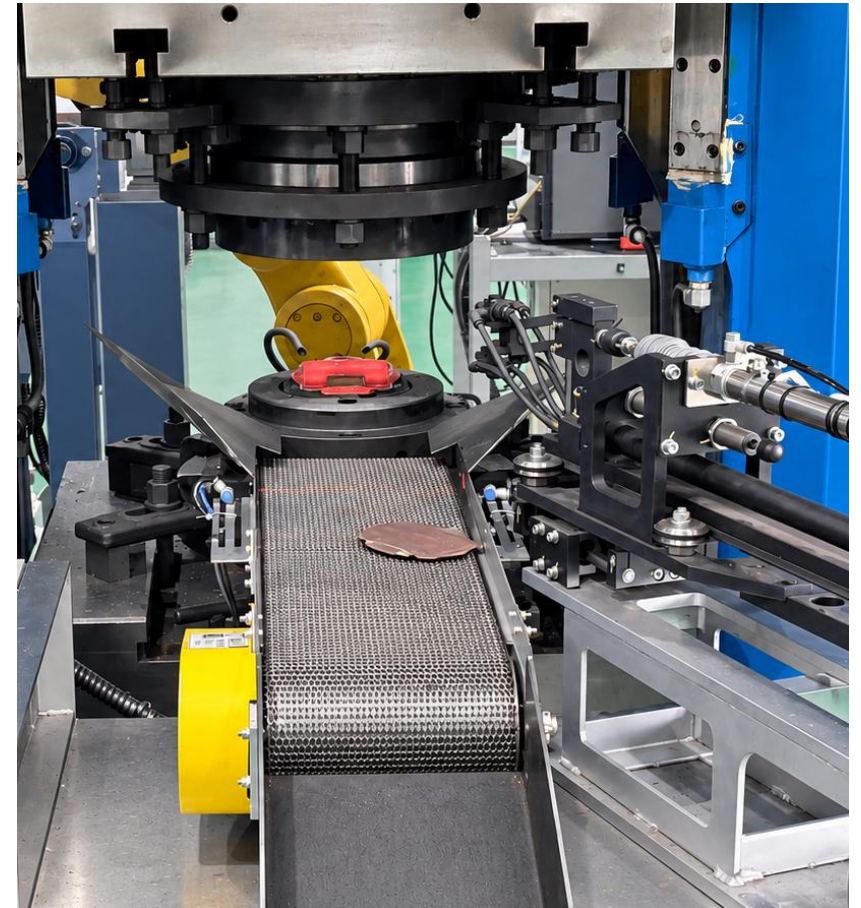

Chang Shui Hui

Forging Manager

Forging Process

From raw material to forged components.

Forging Process

From raw material to forged components.

Machining

Multiple machining operations integrated into a single process.

EQUIPMENT

- CNC Machining Centers
- CNC Lathes
- Drilling & Tapping Machines

CAPABILITIES

Precision Machining, Drilling, Tapping, Milling

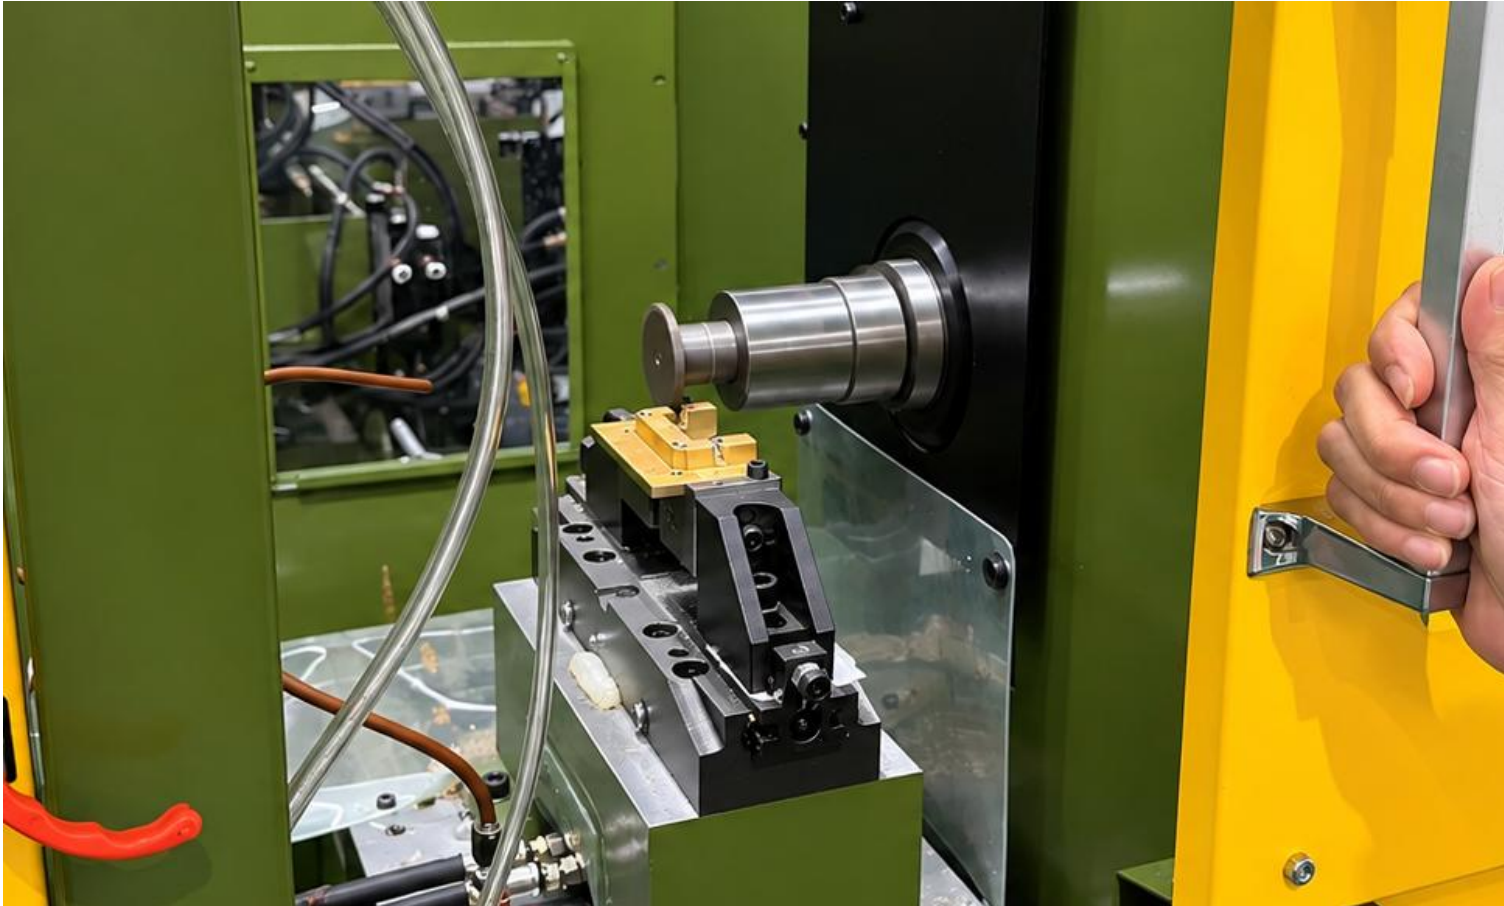

Deng Luo Zi

Machining Manager

Machining In Action

Precision machining in production.

Machining In Action

Precision machining in production.

Manual Polishing

Skilled manual polishing for detailed and complex surface finishing.

EQUIPMENT

- Manual Polishing Stations

CAPABILITIES

Manual Polishing, Surface Preparation

Xu Qing Long

Manual Polishing Manager

Manual Polishing

Detailed surface finishing performed by skilled operators.

Automated Polishing

Automated polishing for consistent quality and repeatable production.

EQUIPMENT

- Automatic Polishing Machines
- Specialized Polishing Machines

CAPABILITIES

Automated Polishing, Multi-Surface Finishing, Consistent Finish Quality

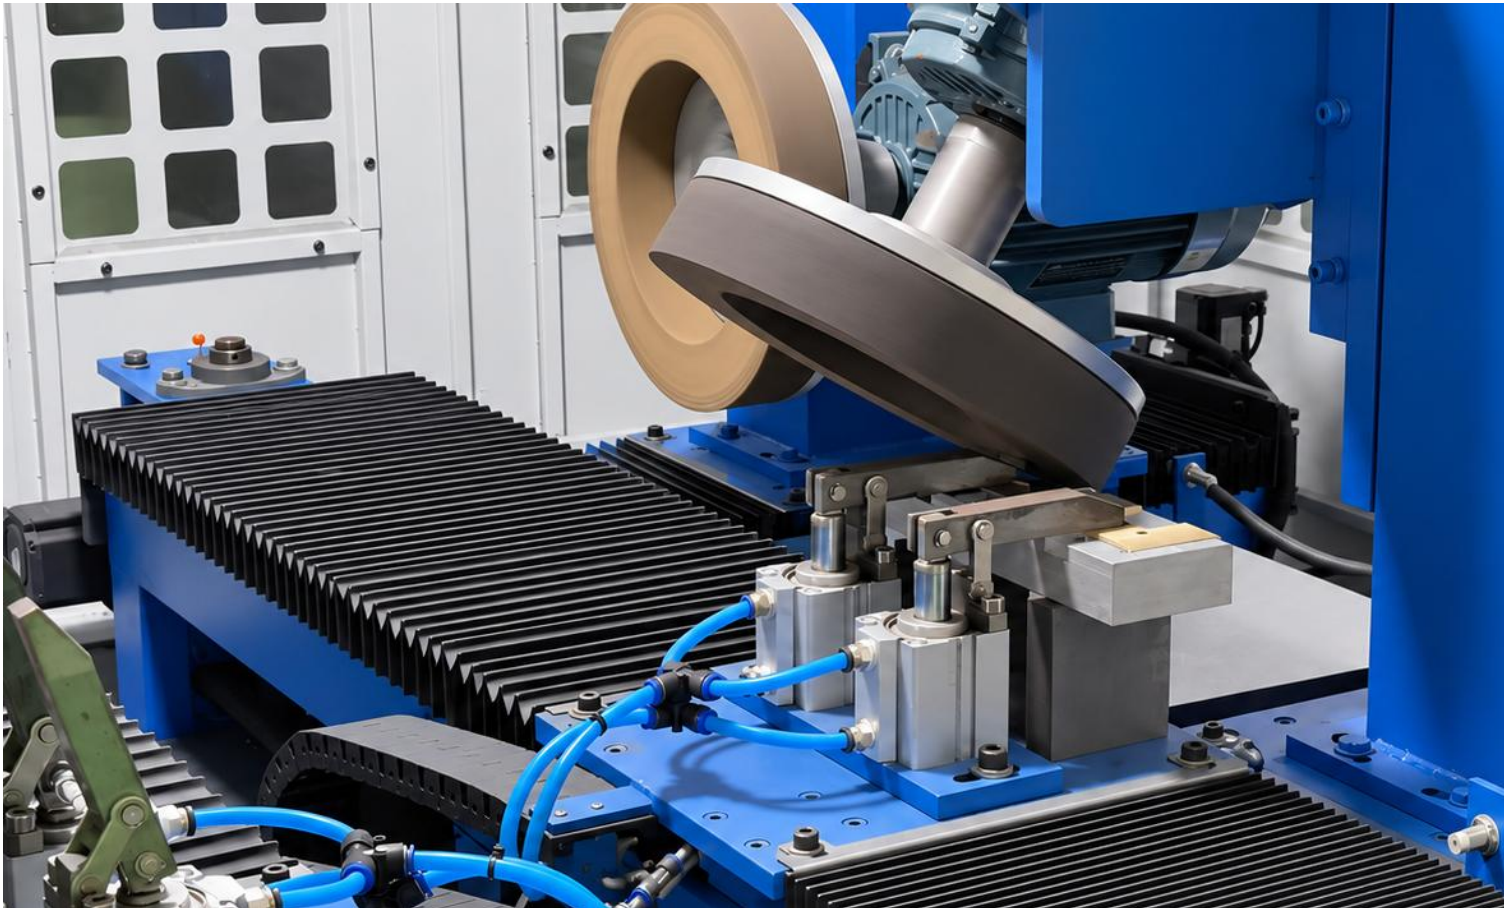

Shi Zheng Jun

Automated Polishing Manager

Automated Polishing

Stable and efficient polishing for volume production.

Electroplating

Integrated surface finishing capabilities for consistent appearance and performance.

EQUIPMENT

- Automatic Electroplating
- Manual Electroplating

CAPABILITIES

Electroplating, Multi-Layer Plating,
Decorative & Protective Finishes

Wang Xiao Shan
Electroplating Manager

Electroplating

Controlled electroplating processes for consistent decorative finishes.

E-Coating

Integrated surface finishing capabilities for consistent appearance and performance.

EQUIPMENT

- Automatic E-Coating
- Manual E-Coating

CAPABILITIES

Electrophoretic Coating, Uniform Coating,
Enhanced Corrosion Resistance

Chi Fei Fei

ED Manager

E-Coating

Controlled E-Coating for uniform and consistent surface finishing.

ASSEMBLY & PACKAGING

Final Assembly, Inspection & Packaging

Chen Sheng

QA Manager

QUALITY ASSURANCE

Inspection & Testing for Consistent Quality

EQUIPMENT

- Tensile Testing Machine
- Swing Cycle Tester
- Hardness Tester
- Salt Spray Test Chamber
- Coating Thickness Gauge

CAPABILITIES

Durability Testing · Mechanical Testing ·
Corrosion Testing · Hardness Testing ·
Coating Thickness Measurement

Built for Reliable Partnership

Integrated manufacturing designed to support quality, flexibility and dependable supply.

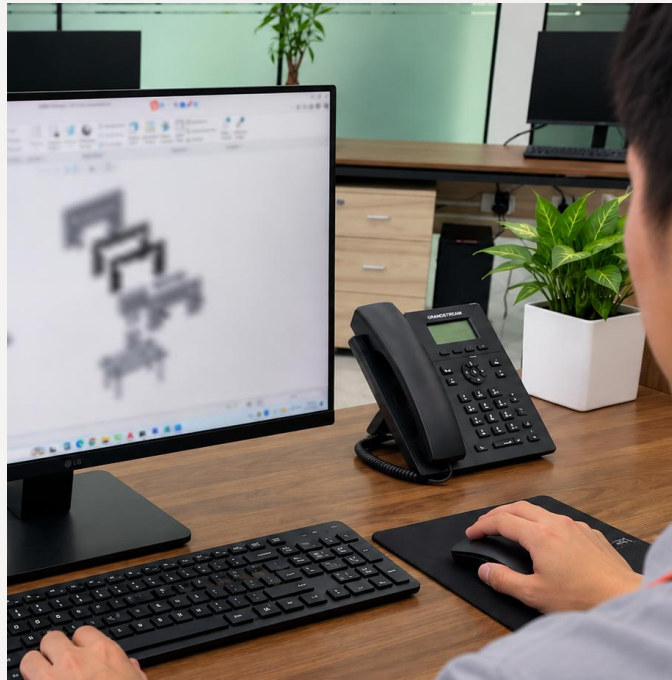

CONTROL

In-house processes provide greater control over quality and production.

FLEXIBILITY

Engineering and tooling capabilities support OEM / ODM and customized requirements.

RELIABILITY

Integrated production supports consistent quality and stable supply.

RICO PRECISION TECHNOLOGY CO., LTD.

LET'S BUILD WHAT'S NEXT.
